★For the telephone number or address of the nearest Federal Bureau of Investigation Office ..... Call Information

Some Telephone Suggestions — From years of study and experience we have learned that the most satisfactory results in using the telephone are obtained when certain practices are followed. We are offering some of the results of our observations in order that you may get the best results from your telephone.

Secure the telephone number before making a call. If not listed, ask the operator for it.

Speak clearly and directly into the telephone, with lips close to mouthpiece.

Answering your telephone promptly may prevent loss of a message.

When your conversation is completed, hang up the receiver and if at a magneto telephone give one short turn of the crank. This gives the operator the disconnect signal.

Keep the receiver on the hook when the telephone is not in use or your line will be out of order.

Long Distance Service — To make a long distance call, give the operator the name of the town you are calling, the telephone number, or the name and address of the residence or business firm being called, followed by your own telephone number.

The call will be Station-to-Station if you will talk with anyone available at the called telephone except when that telephone is an extension or a department reached through a private switchboard. Charges begin when the called telephone or private switchboard is answered.

The call will be Person-to-Person if you specify a person or an extension or department reached through a private switchboard. Charges begin when you reach the person called or when the extension or department specified is reached.

Special rates for both Station-to-Station and Person-to-Person calls are in effect every night from 6 p.m. to 4:30 a.m. and all day Sunday. These rates are lower than corresponding week day rates on calls for distances of about 50 miles or more. The minimum reduced rate is 35 cents for Station-to-Station calls and in general 50 cents for Person-to-Person calls.

Directories — Every precaution is taken to prevent errors or omissions in directories but we cannot guarantee against them, nor can we assume liability for damages caused a customer because of errors or omissions

Regulations and Tariffs — The Telephone Company furnishes all of its various services and adjuncts thereto, subject to its published regulations and tariffs, a public file of which is located in the Business Office. A representative of the Company will gladly lend assistance in securing information from such regulations and tariffs.

TELEPHONE NUMBERS USED FOR BUSINESS ADVERTISING

Telephone numbers used in business advertisements will classify that number as a business telephone regardless of the location of the instrument. The use of the service rather than the location of the telephone, determines the classification as residence or business service.

— NOTICE —

(COPYRIGHTED 1952 DWELLE TELEPHONE COMPANY)

This telephone directory is the property of The Dwelle Telephone Company which owns and controls the exclusive right to the advertising privileges of the directory. All persons are warned against attaching any unauthorized advertisement to the directory or attaching any device that will, in any way, obscure or interfere with any authorized advertisement in directory or on the cover thereof.

How to Use the Dial Telephone

How to Dial

After obtaining the correct number from the directory, remove the receiver and listen for the dial tone — a steady humming sound. Then dial each figure of the number as read. All four figures of the number must be dialed in the proper order, including the zeros as they occur.

Take, for example, number 4171. After hearing the dial tone, place the finger in the dial opening where "4" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it return to its normal position without forcing or retarding its movement. The other figures "1", "7" and "1" should be dialed in a similar manner.

If you make a mistake while dialing or wish to make another call immediately, replace the receiver for a few seconds. Then remove the receiver, listen for the dial tone, and dial each figure of the number again.

Note: If the number you wish to call contains the letter "F", Dial "0", and give the number to the operator.

Service Signals

After dialing, you should hear one of the folowing service signals:

RINGING SIGNAL: This is a "burr-rr-ing" sound which you will hear at regular intervals, and which indicates that the bell of the called telephone is being rung. Always allow the called person sufficient time to answer before you hang up.

BUSY SIGNAL: This is a rapid "buzz-buzz-buzz-buzz" sound, and will be heard after you have finished dialing if the called line is in use. When you hear it, hang up your receiver, and try the call again later.

If after several attempts to reach the desired number you do not hear a signal, Dial "0" and report the condition to the operator.

Hang up the Receiver When Through Talking

It is important to keep the receiver on the hook when your telephone is not in use, as your line is always busy to others while your receiver is off. If you are on a party line, all telephones on your line will be unable to receive calls until your receiver is replaced properly. Do not move the receiver hook or the dial while you are talking or you will be disconnected.

Use of Party Lines

Always listen for the dial tone before starting to dial. If you should hear successive clicks in your receiver, it indicates that another party on your line is dialing. Hang up your receiver and make your call a little later. In case you do not hear the dial tone, and no one seems to be using the line, inquire as to whether the line is in use. If no one is on the line, replace your receiver for a few seconds. Then remove it, and the dial tone should be heard.

If you find no one on your line when you answer your telephone after it has rung, do not hang up immediately. The call may be from another party on your line who has hung up his receiver to allow your telephone to ring.

Special Instructions for Branch Exchanges Beginning Numbers 92-93-94

To dial a number on your own exchange, dial last four digits only. For example if number is 92-2242, dial 2-2-4-2.

To dial any number not on your exchange, first dial 0, then dial complete number as listed. For example if your number is 94-2211, and you wish to call 92-2151, dial 0-9-2-2-1-5-1.

For toll service or operator dial 0-0.

Special Instructions to All Dial Rural Subscribers

First listen on line to see if line is busy, if not, press the "Press to Talk" switch and when you hear dial tone dial as above instructed.

To dial a number on the same line, dial in the usual manner, then when you hear the busy signal, hang up, then take down phone and you will hear the called party's ring. When called party answers press "Press to Talk" switch and proceed with your conversation. When answering a call it is necessary to press the "Press to Talk" switch to be able to carry on conversation.

General Information About Lake City

THE SETTING: Lake City is situated in a sheltered bend of the Mississippi River on the shores of historic Lake Pepin in scenic Hiawatha Valley, with a background of beautifully wooded bluffs. This rugged beauty, extending from historically rich Old Frontenac on the north to the pioneer town of Reeds Landing on the south, is unequaled by work of nature anywhere. Above the valley are prosperous farming areas rolling back for many miles. The present population of Lake City proper is approximately 4,000, with steady increases being enjoyed annually.

BUSINESS: In addition to a wealth of varied commercial services and retail outlets, there are several manufacturing and wholesale establishments, most notably among them being a flour mill, foundry and machine shop, machine tool manufacturing plant, three nurseries, a knitting mill, garment industry and a concrete block factory. These modern, outstanding concerns ship products world-wide.

TRANSPORTATION: Rail transportation is offered by the main line of the Chicago, Milwaukee, St. Paul and Pacific Railroad and bus transportation is provided by the main line of Greyhound Corporation and the Lake City-Rochester Bus Line.

HARBOR AND DOCKAGE FACILITIES: Lake City has a well developed modern harbor for pleasure craft, and barge line dockage facilities for loading and unloading commercial commodities found practical to ship on the Mississippi River.

RECREATION: The City is fast becoming a leader as a recreational vacation land by offering numerous cabin resorts, two hotels, and exceptional dining facilities provided by the elaborate Terrace Supper Club featuring excellent food, dancing and entertainment. Yachting, fishing, golfing, swimming, tennis, skiing, hunting, bowling and other sports are all available and easily accessible.

MUNICIPAL AND PUBLIC SERVICES: Lake City boasts highly efficient twenty-four hour police service and volunteer fire department. The first class school system proudly maintains a combination gymnasium-auditorium with a seating capacity of 1200, together with a modern lighted athletic field. Many fine churches represent eight denominations. Well-kept streets, boulevards and parks are supervised and maintained by the City. Active civic organizations are the American Legion, Veterans of Foreign Wars, Athletic Club, Sportsmen's Club and Chamber of Commerce.

CLIMATE AND SEASONS: The City is so situated in the sheltered valley by Lake Pepin as to result in both summer and winter temperature moderation, as compared to surrounding areas.

OUTLOOK: Civic organizations encourage sound industry to locate at Lake City and the steady progress in this pursuit is proving most healthy. The "Welcome" sign is forever prominent for all who come our way. The casual visitor often awakens to the splendor of Lake City, its surroundings and its friendly people to find himself determined to join this environment, a factor which helps keep our City progressive. For recreation or just good living, this valley of enchantment in the happy hunting ground of Marvelous Minnesota is unsurpassed.

STATE FARM INSURANCE

All types of automobile insurance, including the famous 80-20 collision pioneered by State Farm Mutual. All at low cost because State Farm aims to insure only careful, selected drivers — who have fewer accidents! Also residence liability, life and fire insurance.

Here's America's Favorite Home Financing Plan!

More families all over the United States are acquiring homes of their own on the monthly-payment plan we feature than in any other way. Let us show you how our mortgage plan can include principal, interest, taxes, insurance — all in one uniform monthly payment—arranged to fit your income.
